

## Submission Documents on the CARA Life Sciences Platform™

Managing submission documents on the CARA Life Sciences Platform™ is based on the DIA Reference Model, including all document artifacts and metadata, with some adjustments based on industry best practices.

Create a Global Dossier and then regional derived dossiers, with re-use of content to ensure maximum efficiency of process.

### Benefits

#### Maximise the User Experience

A modern interface makes the CARA Life Sciences Platform easy to use and personalised to the user's work

#### Access and Manage Content in One Place

A single content management platform simplifies workflows and collaboration

#### Meet Corporate & Regulatory Standards

Built for industry best practice, but flexible enough to suit your business

#### Total Lifecycle

From creation to access, search, review, approval, publication and archival

#### Automate Manual Processes

Powerful and flexible workflows bring digitise business process across the organisation

#### Find Everything Instantly

With filters, folders, reports, dashboards and a 'google-fast' search engine, users can find their work instantly

#### Securely Share Content with Partners

Better security models and time-limited, secure access mean you can work seamlessly with affiliates and other partners

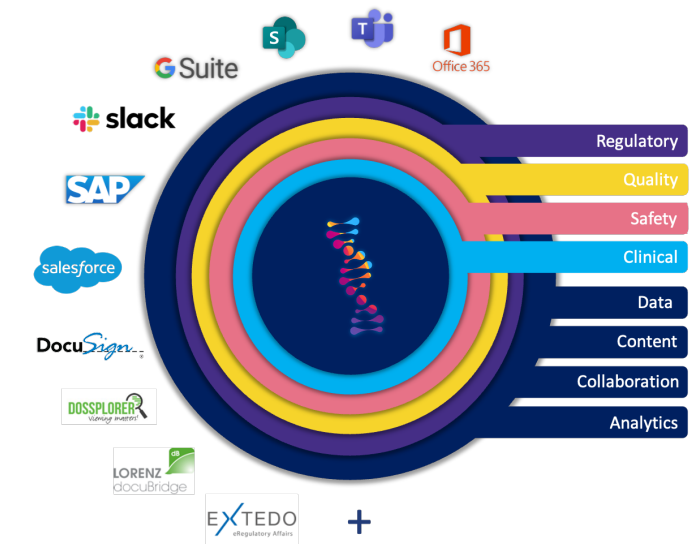

## What is the CARA Life Sciences Platform?

The CARA Life Sciences platform is an enterprise cloud for managing content, data, and business processes through a platform of seamlessly connected apps.

For the first time, the platform provides a vast selection of out-of-the-box solutions for Regulatory, Quality, Safety, and Clinical, combined with the ability to rapidly design & implement other low-code apps to manage your unique processes and requirements.

We believe in a true enterprise platform, where information from all parts of your business can drive and automate work without additional systems and integrations. That's why you can add new applications and use cases to the platform with no additional licensing.

Begin the digital transformation of your business today, by choosing an enterprise platform that gives you the freedom to innovate for tomorrow.
