

## The CARA Life Sciences Starter Package: Designed Specifically for **Small Business Teams**

The CLS Starter Package offers all the benefits and functionality of the CARA Life Sciences Platform but with a lighter infrastructure, designed **specifically for teams of 5 - 150 people**. The CLS Starter Package enables connectivity across your enterprise, with RIM, Quality, Safety, and Enterprise processes all sitting on a single information lake.

### What our starter package offers:

- Fully out-of-the-box: Don't worry about additional configuration, this is a plug and play solution.
- Pre-validated: Adhere to regulatory requirements with ease and maintain compliance.
- Quick implementations: Get up to speed within weeks, don't delay better processes.
- Cost saving architecture: The architecture of the CLS Starter Package means that overall price is lower, leading to an even better ROI.
- High user adoption: Don't waste time implementing systems no one will use. The CLS Starter Package is intuitive and simple to navigate.
- Scalable: This package offers a great starting point, but as your team and processes grow, the move to the full CARA Platform is straightforward.
